The Nevada State Board of Medical Examiners conducts an investigation into your background. If, in the process, staff becomes aware of circumstances warranting a personal appearance before the board at a board meeting, your application must be completed 45 days prior to any regularly scheduled board meeting in order for your licensure application to be placed on the agenda of that meeting. Under Nevada law, a public body cannot hold a meeting to consider the character, alleged misconduct, professional competence, or physical or mental health of any person unless it has given written notice to that person of the time and place of the meeting. The written notice must be sent by certified mail to the last known address of that person at least 21 working days before the meeting. A public body must receive proof of service of the notice before such a meeting may be held. If, at the time you meet with the board, the board votes to deny or **not** accept your application for licensure, this denial or non-acceptance of your application may become a reportable action to the National Board for Respiratory Care, Inc., or its successor organization.

If the practitioner of respiratory care applicant has not practiced as a practitioner of respiratory care for 12 months or more before applying for licensure in this state, he or she may, at the order of the board, be required to take and pass such examination to test professional competency as the board shall deem appropriate.

The practitioner of respiratory care applicant must be able to communicate adequately, both orally and in writing, in the English language. The practitioner of respiratory care applicant must be of good moral character and reputation. If a licensee loses certification by the National Board of Respiratory Care, Inc., or its successor organization, his or her license to practice respiratory care in Nevada is automatically suspended until further order of the board. The practitioner of respiratory care shall immediately notify the board of termination of employment as a practitioner of respiratory care. The practitioner of respiratory care shall submit to the board a summary of the reasons for and circumstances of the termination of employment.

Practitioner of respiratory care licenses will be issued in the applicant's name as indicated on the submitted documentation for proof of such name (i.e. U.S. birth certificate, Certificate of Naturalization or alien registration card).

Grounds for rejection of an application for practitioner of respiratory care licensure:

If it appears that:

1. An applicant for licensure as a practitioner of respiratory care is not qualified or is not of good moral character or reputation;
2. Any credential submitted is false; or
3. The application is not made in proper form or other deficiencies appear in it, the application may be rejected.

Explaining and documenting a problem to your licensing specialist will be much less painful than discussing your veracity before the entire Board of Medical Examiners due to inconsistencies between your application and incongruent input from outside sources.
